MATERIALS, THIRD EDITION: ENGINEERING, SCIENCE, PROCESSING AND DESIGN

Butterworth-Heinemann. Hardcover. Book Condition: New. Hardcover. 672 pages. This is the essential materials engineering text and resource for students developing skills and understanding of materials properties and selection for engineering applications. Taking a unique design- led approach that is broader in scope than other texts, Materials 2e meets the curriculum needs of a wide variety of courses in the materials and design field, including introduction to materials science and engineering, engineering materials, materials selection and processing, and materials in design. This new edition retains its design-led focus and strong emphasis on visual communication while expanding its treatment of crystallography and phase diagrams by use of Guided Learning sections to fully meet the needs of instructors teaching an introductory course in materials. KEY FEATURES: Design-led approach motivates and engages students in the study of materials science and engineering through real-life case studies and illustrative applications Highly visual full color graphics facilitate understanding of materials concepts and properties Chapters on materials selection and design are integrated with chapters on materials fundamentals, enabling students to see how specific fundamentals can be important to the design process For instructors, a solutions manual, lecture slides, online image bank and materials selection charts for use in class handouts or lecture presentations are available at <http://textbooks.elsevier.com> Links with the Cambridge Engineering Selector (CES EduPack), the powerful materials selection software. See www.grantadesign.com for information NEW TO THIS EDITION: Guided Learning sections on crystallography, phase diagrams and phase transformations enhance students learning of these key foundation topics Revised and expanded chapters on durability, and processing for materials properties More than 50 new worked examples placed throughout the text Available online testing and assessment component helps students assess their knowledge of the topics - Email textbooks@elsevier.com for details Link to interactive online materials science...
